

New

Antibacterial Ball-Grip Interchangeable Driver Set/ Ball-Grip Handle No.220CW-3 / No.220CW

Meet the needs for antibacterial and antiviral tools

Antibacterial Ball-Grip Interchangeable Driver Set (No.220CW-3)

Antibacterial Ball-Grip Handle (No.220CW)

The bit is compatible with alcohol wiping.
*The bit has no antibacterial effect.

The antibacterial agent added to the resin is effective in inactivating viruses and bacteria.

The added antibacterial agent has excellent heat resistance, water resistance, and weather resistance, and maintains the antibacterial effect for a long period of time.

*Antibacterial test with Staphylococcus aureus

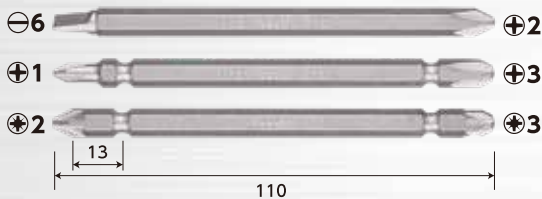

The "Coronavirus Infection Prevention Guidelines" published by Keidanren (Japan Business Federation) also contains guidelines for tools.

Awareness of antibacterial and sterilization at manufacturing and production sites is increasing, and the guideline for disinfection of tools is described in the "Guidelines for Preventing New Coronavirus Infection at Manufacturing Plants" issued by the Keidanren (Japan Business Federation).

As of Dec. 1, 2020

"Guidelines for Preventing New Coronavirus Infection at Manufacturing Plants" issued by the Keidanren
https://www.keidanren.or.jp/policy/2020/118_guideline2.pdf

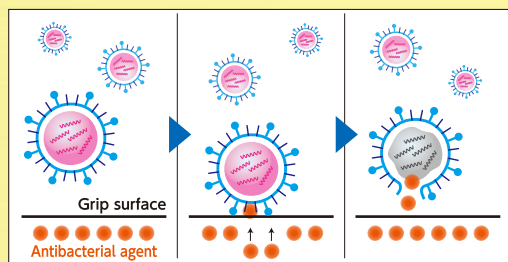

Applications

As a regular tool for hygiene-conscious sites such as restaurants and medical/ welfare facilities

Antibacterial mechanism

The antibacterial agent added to the antibacterial driver destroys and inactivates a part of the lipid membrane that covers the surface of the virus.
