

Made of severely-selected material of steel by optimum thermal processes, the strength against tip breakage has considerably increased. This "RainBall" wrench meets the torque resistance requirement set under JIS standards.

Quick & smooth wrenching
UltraBall.

The driving part of "RainBall" is designed to fit the hex hole at a high position, making it possible to tighten screws at a 35-degree angle. The pointed tip becomes the center of smooth power rotation.

Superior efficiency in torque transmission

Short-hand design for wider application at limited space

9PC set offers you with open-folded holder.

No.8800BP "RAINBALL" L-wrenches

- Easy to spot in a tool box as they are colour-coded.
- Long-sized for high-leverage wrenching. ● Short-hand for wrenching in tight spaces.
- 95° short hand gives easier operations.
